Base plate: With anti-slip, easy-to-clean acrylic coating including profiles to retain the sand and integrated water drainage.

Design: Moredesign

Product description

The shower Dyno is available in all colors of versions embossed cast or glossy painted. The base, made of ABS, has profiles to retain the sand and is covered with an acrylic film that makes cleaning operations easier and safer. Dyno has a shower head with anti-drip chrome-plated plastic and a system for saving water up to 50%, and silicone nozzles that can be easily cleaned with a hand wipe. The mixer is made of one piece of stainless steel. The shower Dyno is suitable for indoor and outdoor use in the normal version with hot and cold water from the water network.
