Product description

Strategy, contemplation, intelligence: all three are important elements to enjoy Teckell's board games, but above all, you need time. A rare gift in these hectic times. The time to think about the next step, to linger over the board, to challenge your sparring partner. A collection dedicated to those for whom patience is a virtue and beauty is unabashedly revered. Stratego is also a design object that you can admire while lounging on a leather sofa doing absolutely nothing. Or it can quickly become the scene of a modern strategic duel between friends. With Teckell Stratego, the popular board game becomes a precious design object, a sculpture to touch and play. "Teckell's proven materials were our inspiration - marble, crystal and steel - which Stratego combines in a single product" - says Lorenzo Di Giovanni.

It was important that Stratego has a clear profile without elements breaking up the lines. In this way, you can best appreciate the reflections and the play of light created by the combination of different materials. For this reason, we have developed a magnetic opening system for the game board that rests in the base. In this way you can extract the game board - Stratego clear lines hide four different games: Chessboard, Checkers, Backgammon, Chinese Chess, Ludo - and replace another without push buttons or latches that would have broken the minimal lines of the marble base. Innovation and a "less is more" approach make the hallmark of Teckell.
