Beech
Iroko
oak
walnut

Design: Bernard Vuarnesson, 1987

**Product description**

Coffee table with solid wood structure and 6 reversible and removable tops. Both sides of the trays are made of laminate with a surrounding solid wood edge. One side is smooth laminate, flush with the edge. The other side is a serving tray. The finish of the structure is always the same as that of the table top edge. Hexa is a piece of furniture that offers several support surfaces and therefore functional possibilities.

**about Sculptures Jeux**

Sculptures Jeux is about playing with spaces, making the home lively and changeable, it's about being original by bringing color into our lives.
Home is the refuge of our feelings, a place where we experience emotions with the people we love.
Thus, the space that surrounds us gains importance, the furniture follows our personality, it is one with what we want to convey every day, it means communicating without saying a word, but with materials, shapes and colors. People and their creativity are at the center of the room.

Sculptures Jeux is committed to the green concept and uses a photovoltaic system to support 70% of its production. All panel and solid material suppliers are FSC-certified. The combustion of the biomass generated from the operation heats Sculptures Jeux's offices and workplaces and the production follows US regulations for low formaldehyde emissions.
