Combination consisting of:
1 container, swivel-mounted with 1 shelf and 7 shelves, white lacquered

Available accessories: Front mirror

Assembly: The furniture is delivered fully assembled

Design: Stefano Bettio 2020

Product description

The space contains the form, the function of which can only be experienced by the viewer through the rotating movement. The apparently strict geometric regularity of Giralot is suddenly broken up by the asymmetrical play of the movable containers. Giralot shoe cabinet is a movable, variable piece of container furniture with a column on the left or right, which is placed on the floor and fixed to the wall at 2 points and serves as an axis for the containers, which can be swiveled through 180°. The depth is 30 cm. The container is available in V veneer (wood) or T Touch (color lacquered). The intermediate shelf can support a weight of up to 15 kg. The unit is supplied fully assembled. The maximum height of the baseboard in the standard version is 7.5 cm. For a maximum height of 17.5 cm, a visible extension piece of 10 cm is available, resulting in a new total height for Giralot of 206 cm; the heights of the swivel containers remain unchanged.

about Sculptures Jeux

Product information

Sculptures Jeux is about playing with spaces, making the home lively and changeable, it's about being original by bringing color into our lives.
Home is the refuge of our feelings, a place where we experience emotions with the people we love.
Thus, the space that surrounds us gains importance, the furniture follows our personality, it is one with what we want to convey every day, it means communicating without saying a word, but with materials, shapes and colors. People and their creativity are at the center of the room.

Sculptures Jeux is committed to the green concept and uses a photovoltaic system to support 70% of its production. All panel and solid material suppliers are FSC-certified. The combustion of the biomass generated from the operation heats Sculptures Jeux's offices and workplaces and the production follows US regulations for low formaldehyde emissions.
