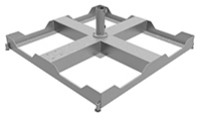
Please click on "**Change**" under "Floor stand" and select the appropriate attachment.



# Product information

**MONACO slab stand**: Suitable for the Samara, Supremo & Primus models.
100x100 cm, galvanized steel, with levelling screws for concrete slabs 40x40x5 cm. With castors and cover on request.

up to 3.5 m → 4 panels
up to 4 m → 8 panels
up to 4.5 m → 12 panels
up to 5.5 m → 16 panels

**Slab stand DUBLIN:** :Suitable for the models Amalfi, Amalfi Duo, Belvedere, Centro, Big Ben
100x100 cm, galvanized steel, with levelling screws for concrete slabs 40x40x5 cm. With castors and cover on request.

up to 4 m → 8 panels
up to 4.5 m → 12 panels
up to 5 m → 16 panels
up to 6 m → 20 panels
up to 7 m → 24 panels

**BBK ground socket:** Suitable for the Amalfi, Amalfi Duo, Belvedere, Centro and Big Ben models
For setting in concrete, 35 cm long. The sunshade is screwed on directly. Ground-level finish. For fully concreted surfaces.

**Ground socket BBKE:** Suitable for the models Amalfi, Amalfi Duo, Belvedere, Centro, Big Ben
As BBK but with power supply In waterproof housing: Initial installation by electrician required.

**Foundation required for BBK + BBKE ground socket:**

up to 4 m → 40x40x80 cm
up to 6 m → 60x60x80 cm

# Product information

over 6 m → 80x80x80 cm

**Ground socket BBL:** Suitable for the models Amalfi, Amalfi Duo, Belvedere, Centro, Big Ben
61 cm long. The sunshade is screwed on directly. For paved floors or mixed floors with soil, sand or cavities.

**BBLE ground socket:** Suitable for the models Amalfi, Amalfi Duo, Belvedere, Centro, Big Ben
Like BBL but with power supply In waterproof housing. Initial installation by electrician required.

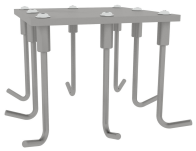
**Ground socket Pianura K:** Suitable for the models Samara, Supremo, Primus
For setting in concrete, 35 cm long. The shade is screwed on directly. Ground-level finish. For fully concreted surfaces

**Ground socket Pianura L:** Suitable for the Samara, Supremo, Primus models
61 cm long. The sunshade is screwed on directly. For paved floors or mixed floors with soil, sand or cavities.

# Product information

**Europa K ground socket:** Suitable for the Samara, Supremo, Primus models
Stainless steel ground socket 25 cm long for setting in concrete. The upper part of the ground socket can be removed. Standard solution for concrete foundations.

**Europa L ground socket:** Suitable for the Samara, Supremo, Primus models
Stainless steel ground socket 50 cm long for setting in concrete. The upper part of the ground socket can be removed. For paved floors or mixed floors with soil, sand or cavities.

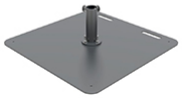


**Ground socket AQ:** Suitable for the Amalfi Duo, Amalfi Quadro models
Stainless steel ground socket 20 cm long for setting in concrete. Foundation 100 x 100 x 50 cm. Standard solution for concrete foundations.

**Ground socket AL:** Suitable for the models Amalfi Duo, Amalfi Quadro
Stainless steel ground socket 20 cm long for setting in concrete. Foundation 100 x 100 x 50 cm. For paved floors or mixed floors with soil, sand or cavities.

**Base plate BB:** Suitable for the models Amalfi, Amalfi Duo, Belvedere, Centro, Big Ben
Powder-coated, 70x70x1 cm, steel plate with screw-on stand and holes for bolting to the foundation. Weight 39 kg:

# Product information



**OSLO base plate:** Suitable for the Samara, Supremo, Primus models
Powder-coated, 70x70x1 cm, steel plate with screw-on stand for screwing to the foundation. Weight 42 kg:

**Base plate GENF:** Suitable for the models Samara, Supremo, Primus
Powder-coated, 100x100x1 cm, steel plate with screw-on stand for screwing to the foundation. Weight 85 kg:

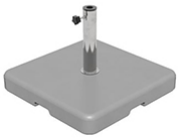
**Screw-on foundation (Krinner):** Suitable for the models Amalfi, Amalfi Duo, Belvedere, Centro, Big Ben; Samara, Supremo
Length 130 cm, Ø 14 cm. Hot-dip galvanized metal tube with spiral thread for screwing into the ground. Extremely stable.

**Universal plate stand:** Suitable for the Centro, Big Ben, Grande models
4 hot-dip galvanized plates, connected with an additional steel plate. 148x148x2.7 cm, net weight 214 kg.

# Product information

**Stainless steel pedal swivel base:** Suitable for the Amalfi, Belvedere models
For traffic light parasols for mounting on a base or ground socket. Unlocking by pedal, 360° rotatable.

**Rimini:** Suitable for the models Samara, Supremo, Primus
Black concrete, with castors and handle. 55x55x8 cm, 55 kg.



**Paris.** Suitable for the models Samara, Supremo, Primus
Concrete stand with recessed grip, stainless steel tube. 59x59x12 cm, 85 kg.

**Rome:** Suitable for the models Samara, Supremo, Primus
Granite stand, polished, stainless steel tube. Ø 70 cm, 90 kg.

**MULTICUB:** Steel baskets suitable for the Monaco and Dublin slab stands or as a complete set
Gabion umbrella stand with seat function. HPL seat cushion. Seat height 54 or 84 cm.

**Available fabric colors**

**Premium Acrylic Awning Fabric:**

# Product information

The high-quality acrylic awning fabric is made of 100% solution-dyed branded acrylic. Unlike conventional yarn dyeing, the color pigments are incorporated directly during the fiber production process. This ensures highly reliable protection against harmful UV radiation while maintaining long-lasting, vibrant, and lightfast colors.

The robust acrylic fabric also impresses with its high tear resistance. A special protective finish makes the material water- and dirt-repellent. This provides a durable and proven solution for long-term outdoor use.

Fabric Specifications

− Waterproof 300 – 460 mm water column, EN 20811
− High color and weather fastness (7 – 8 of 8)
− Water- and dirt-repellent
− 100% acrylic 285 – 300 g/m²
− Custom branding on canopy and valance possible

**Many fabrics are also available in All Weather quality. Waterproof up to 1000 mm water column, EN 20811.**

### Premium Acrylic ProNature:

With Acryl ProNature, CARAVITA presents an innovative fabric option with added value: a special finishing treatment actively contributes to improving air quality. Through a photocatalytic process, pollutants such as nitrogen oxides, sulfur oxides, and organic compounds are reduced – while unpleasant odors are neutralized at the same time.

This creates a noticeable contribution to greater sustainable quality of life outdoors. In terms of durability, weather resistance, and technical performance, Acryl ProNature fully matches the proven classic acrylic fabric.

− Waterproof 300 – 370 mm water column, EN 20811
− High color and weather fastness (7 – 8 of 8)
− Water- and dirt-repellent
− 100% acrylic 285 – 300 g/m²
− Custom branding on canopy and valance possible

### Tempoteststar FR:

The Tempoteststar fabric collection by PÀRA consists of a flame-retardant textile certified according to the recognized fire protection class B1. The high-quality, 100% solution-dyed polyester is available in a wide range of colors and is particularly suitable for applications where fire safety requirements play a central role.

− Flame-retardant, fire protection class B1 (DIN 4102)
− Oil-, water-, and dirt-repellent
− High color and weather fastness (7 – 8 of 8, DIN EN ISO 105 B04)
− Waterproof 280 – 300 mm water column, UNI EN 20811
− 100% solution-dyed polyester 300 g/m²

# Product information

### Ferrari Precontraint 302

This PVC-coated sun protection membrane is characterized by exceptional durability and strength. It is completely waterproof and meets high flame-retardancy standards – properties that prove particularly valuable in demanding outdoor environments.

– Not suitable for Big Ben Freestyle, Belvedere, Grande
– Flame-retardant, fire protection class B1 (DIN 4102)
– Polyester fabric with PVC coating
– Completely waterproof
– Dirt-repellent
– High color fastness (7 – 8 of 8, DIN EN ISO 105-B02)
– Surface weight 480 g/m²
– Custom branding on canopy and valance possible

#### Options & Accessories

**Wind roof and wind vent:**

**Wind vent:** The sewn-in vent lies on the canopy, lifts in the wind and reduces wind load.

**Wind roof:** Features an additional frame. Enhances the appearance and improves wind resistance. Heat can escape upwards, preventing heat build-up.

**Valance types:**

**Flowing valance:** Seamless transition from canopy to valance without a visible edge. Moves in the wind.

**Attached valance:** Visible edge between canopy and valance. Side sections are connected, reducing movement – ideal for advertising umbrellas.

**Protective cover in PVC** (light grey)

**Protective cover in acrylic** (light grey or matching canopy color)

**Cover rod:** Telescopic rod for easy handling when placing the cover.

**Mast protection padding:** Height 90 cm, padding thickness 4 cm, fastening with Velcro.

**Base protection padding**

**Accessories such as heaters, integrated lighting and motor drives are available for BIG BEN series umbrellas.**

#### Product description

SUPREMO

**Slim and robust, large and sophisticated!**

# Product information

Supremo opens particularly refined and fast via the so-called Easy-Lift-Balance system. By pressing the release button, the umbrella unfolds halfway by itself and can then be easily and quickly stretched with just one movement.

Telescopic mechanism extends the pole when closing, so Supremo closes above table height.

Double-supported struts, which are also reinforced for large umbrellas, and solid aluminum rims in frame color guarantee high stability even with large spans and heavy use.

SUPREMO
-Premium awning cloth. Further Hightech.Outdoor.cloths against surcharge erhaltlich.
-Robust aluminum frame with 50mm pole (3mm wall thickness) and 30x15x2mm struts.
-Double.Layer.Power struts 30x15mm with internal reinforcement over the entire length !
-Frames in white RAL 9016, anthracite gray RAL 7016, aluminum matt anodized.
-Frames in other RAL colors at extra cost.
-Massive aluminum wreath in frame color.
-Easy-Lift-Balance-System
-Stainless steel lever with Auto.Lock latch
-Aluminum deck cap with ball in frame color as an option.

**About Caravita**

CARAVITA is regarded as the leading brand for high-quality sunshades and sun sails and as a synonym for quality and design. With spans of up to seven meters, the noble large umbrellas create space for all conceivable uses and, thanks to an exceptionally robust construction, can withstand even high wind loads. Innovative mechanisms open each umbrella size as smoothly as on the first day, even after years of use, and ensure easy and convenient handling. CARAVITA parasols are characterized by handcrafted, made-to-measure production. The complete selection of fabric and frame colors can be individually combined. This guarantees - in connection with many other brilliant extras - the fulfillment of highest demands in gastronomy, hotel business and in the private garden.

- Individual design: over 130 fabric and 200 frame colors according to the customer's wishes.
- Durable products: Due to high-quality aluminum and stainless steel components
- Innovative mechanics: Ensures smooth operation for years to come
- High stability: Thanks to above-average wall thickness of pole and struts
- Special shapes made to measure with the Big Ben Freestyle

The living space grows out into the open. Eating, drinking, celebrating, laughing or working outside - there are no limits to individuality. No matter whether on the private balcony or the cozy restaurant terrace. Even in spring, when the first warm rays of sunshine entice people outside, they want to enjoy additional comfort. Indispensable for leisure time in the green are well thought-out trend products in the field of sun protection. This is the only way to create new favorite spots and make outdoor living a year-round pleasure.

- Off-the-peg sunshades? Not at CARAVITA. After all, your requirements and needs are also quite individual. That's why each of our sunshades is custom-made. See for yourself how, with over 30 years of experience and a lot of passion, a high-quality shade provider is created.
