VONDOM AGATHA lacquered planter

Art.Nr.: VON4072 / GTIN: 8412524207094 / manufacturer: [Vondom](#)

1.174,50 €

Regular retail price ~~1.305,00 €~~ (you save 130,50 €)

incl. 19% VAT incl. Shipping

■ Delivery time: 3 - 5 weeks

Dimensions / Technical Data:

Approx. dimensions: length 95cm, width 90cm, height 45cm

Planting depth approx: Ø 90cm tapering down to 40cm, depth 28cm

Structure: LLDPE resin. Linear polyethylene, weather-resistant and unbreakable

Surface: High-gloss industrial lacquer finish

Product information

Available colors: See color palette

Special feature:

Double-walled planter

Suitable for indoor use

Design: Agatha Ruiz de la Prada

Product description

The Agatha collection by Agatha Ruiz de la Prada brings youthfulness, innocence and spontaneity to the doors of Vondom and is the first children's collection. The designer's characteristic icons are immediately recognizable in the children's furniture by their simple, sweet and refined shapes. This children's furniture collection consists of three basic components: a flower pot, a table and a mini chair. A flower with large petals is what makes up this table and plant pot, which are accompanied by heart-shaped stools. Thanks to these eye-catching designer pieces, a dreamlike garden is created in which the vitality, imagination and ingenuity of children become contagious.

VONDOM - Care of Lacquered Products

Lacquered VONDOM products are real eye-catchers! They give surfaces an incomparably high-quality appearance. However, lacquered VONDOM products are only suitable for outdoor use to a limited extent. In regions with large temperature fluctuations, the base material (polyethylene) can expand or contract minimally under thermal stress. This could lead to fine hairline cracks and ultimately to paint chipping. If you still want to use lacquered products outdoors, careful care is essential. Due to their sensitivity, lacquered surfaces should not be cleaned with water pressure. Also avoid using abrasive cleaners or corrosive solutions! Instead, we recommend applying body wax every two to three months to prevent scratches. Please note that damage to the paint surface caused by thermal stress outdoors is not considered a valid reason for complaint and is therefore not covered. However, the statutory warranty remains fully valid for indoor use. Translated with DeepL.com (free version)

VONDOM planters

Material properties:

- Material: LLDPE resin, linear low density polyethylene. UL 94 HB
- Manufacturing process: Rotational molding - rotational molding process
- UV-resistant, factor: UV8, corresponding to 8,000 hours of Florida sunshine
- Extremely temperature resistant (-60 to -80 degrees Celsius)
- Impact resistant
- Lightweight
- 100 % recyclable

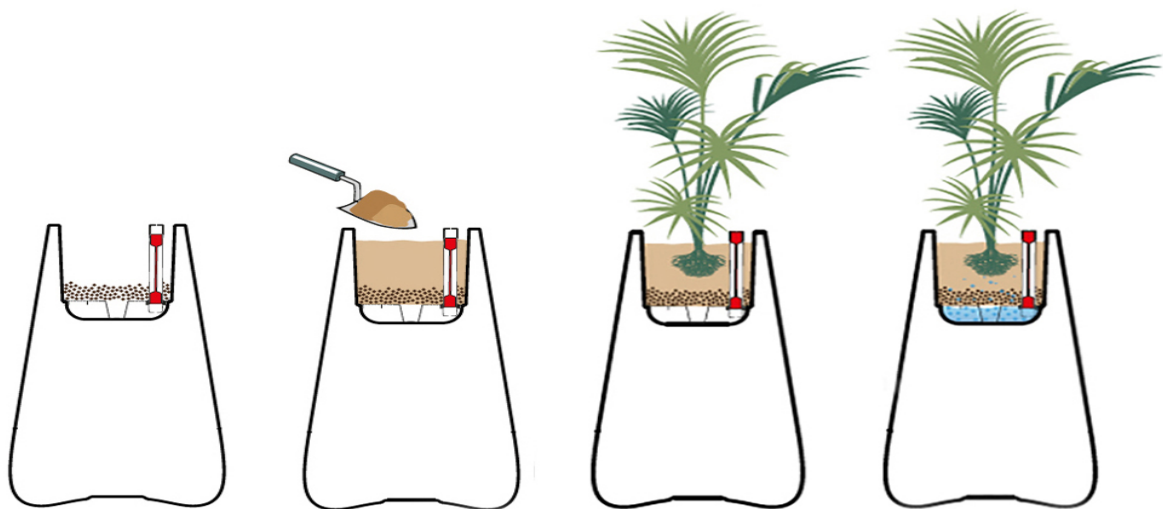

Watering system & integrated wheels:

Planters with a self-watering system are usually supplied with integrated wheels up to a size of 60cm. The integrated wheels make it easier to move the planter. The watering system ensures perfect care for your plants. The watering system is designed for indoor use only and is not suitable for outdoor use.

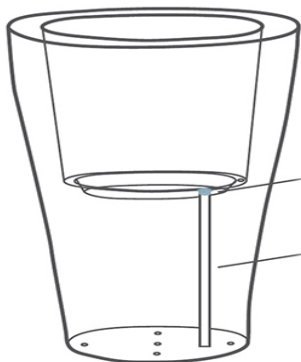

Indoor or outdoor use?

Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.

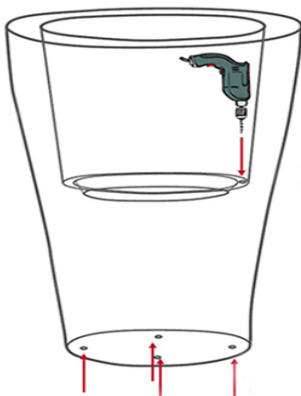

Product information

Bewässerungssystem - Watering system - Système d'arrosage - Sistema di irrigazione - Sistema de riego - System nawadniania

Verschließbarer Wasserablauf bei beleuchteten Pflanzgefäßen
Lockable water drainage for illuminated planters
