Delivery: Wooden crates with a maximum length of 5 meters. Assembly requires a cherry picker

Included in the scope of delivery. PVC weather protection cover, light gray

Special feature: 5-year guarantee (in accordance with the CARAVITA guarantee conditions)

## Ground Fixing GRANDE

---

Please click on "**change**" for the "ground stand" feature and select the appropriate fastening.

# Product information

---

## GRANDE ground socket:

24 x 24 x 61 cm. Foundation of 140 x 140 x 100 cm required.

## GRANDE steel plate:

150 x 150 cm, steel plate (450 kg). The plate (150 x 150 cm) is placed on a concrete foundation and must be securely anchored.

## Available fabric colors

---

### Premium Acrylic Awning Fabric:

The high-quality acrylic awning fabric is made of 100% solution-dyed branded acrylic. Unlike conventional yarn dyeing, the color pigments are incorporated directly during the fiber production process. This ensures highly reliable protection against harmful UV radiation while maintaining long-lasting, vibrant, and lightfast colors.

The robust acrylic fabric also impresses with its high tear resistance. A special protective finish makes the material water- and dirt-repellent. This provides a durable and proven solution for long-term outdoor use.

#### Fabric Specifications

- Waterproof 300 – 460 mm water column, EN 20811
- High color and weather fastness (7 – 8 of 8)
- Water- and dirt-repellent
- 100% acrylic 285 – 300 g/m<sup>2</sup>
- Custom branding on canopy and valance possible

**Many fabrics are also available in All Weather quality. Waterproof up to 1000 mm water column, EN 20811.**

### Premium Acrylic ProNature:

With Acryl ProNature, CARAVITA presents an innovative fabric option with added value: a special finishing treatment actively contributes to improving air quality. Through a photocatalytic process, pollutants such as nitrogen oxides, sulfur oxides, and organic compounds are reduced – while unpleasant odors are neutralized at the same time.

This creates a noticeable contribution to greater sustainable quality of life outdoors. In terms of durability, weather resistance, and technical performance, Acryl ProNature fully matches the proven classic acrylic fabric.

- Waterproof 300 – 370 mm water column, EN 20811
  - High color and weather fastness (7 – 8 of 8)
  - Water- and dirt-repellent
-

- 100% acrylic 285 – 300 g/m<sup>2</sup>
- Custom branding on canopy and valance possible

## Tempoteststar FR:

The Tempoteststar fabric collection by PÀRA consists of a flame-retardant textile certified according to the recognized fire protection class B1. The high-quality, 100% solution-dyed polyester is available in a wide range of colors and is particularly suitable for applications where fire safety requirements play a central role.

- Flame-retardant, fire protection class B1 (DIN 4102)
- Oil-, water-, and dirt-repellent
- High color and weather fastness (7 – 8 of 8, DIN EN ISO 105 B04)
- Waterproof 280 – 300 mm water column, UNI EN 20811
- 100% solution-dyed polyester 300 g/m<sup>2</sup>

## Ferrari Precontraint 302

This PVC-coated sun protection membrane is characterized by exceptional durability and strength. It is completely waterproof and meets high flame-retardancy standards – properties that prove particularly valuable in demanding outdoor environments.

- Not suitable for Big Ben Freestyle, Belvedere, Grande
- Flame-retardant, fire protection class B1 (DIN 4102)
- Polyester fabric with PVC coating
- Completely waterproof
- Dirt-repellent
- High color fastness (7 – 8 of 8, DIN EN ISO 105-B02)
- Surface weight 480 g/m<sup>2</sup>
- Custom branding on canopy and valance possible

## Options & Accessories

---

### Wind roof and wind vent:

**Wind vent:** The sewn-in vent lies on the canopy, lifts in the wind and reduces wind load.

**Wind roof:** Features an additional frame. Enhances the appearance and improves wind resistance. Heat can escape upwards, preventing heat build-up.

### Valance types:

**Flowing valance:** Seamless transition from canopy to valance without a visible edge. Moves in the wind.

**Attached valance:** Visible edge between canopy and valance. Side sections are connected, reducing movement – ideal for advertising umbrellas.

---

# Product information

---

**Protective cover in PVC** (light grey)

**Protective cover in acrylic** (light grey or matching canopy color)

**Cover rod:** Telescopic rod for easy handling when placing the cover.

**Mast protection padding:** Height 90 cm, padding thickness 4 cm, fastening with Velcro.

**Base protection padding**

**Accessories such as heaters, integrated lighting and motor drives are available for BIG BEN series umbrellas.**

## Product description

---

Big, bigger, GRANDE. Where standard umbrellas are no longer sufficient, the robust center mast umbrella scores with its large spans. In the catering trade, the shade provider with a surface area of up to almost 80 m<sup>2</sup> provides a pleasant ambience for a large number of guests. Large terraces and outdoor areas offer plenty of space for socializing and relaxing. It is therefore especially important to provide sufficient and comfortable shade. If a normal parasol is not enough, **large umbrellas** are in demand **as shade providers**.

### Durable construction:

Only the best materials and especially strong aluminum profiles are used in the sturdy construction of the Grande. The solid pole has a diameter of 120 mm and a wall thickness of 5 mm, making it stronger than most in its class.

### Robust anchoring:

The mast is fixed to a 450 kg steel plate with several screws. The plate (150 x 150 cm) is placed on a concrete foundation. Thus, the Grande is safe and stable in any weather. Alternatively, the parasol can be anchored by means of a ground sleeve.

### Sophisticated telescopic mechanism:

The advantage: when closing, the telescopic mechanism extends the pole! Table and patio furniture can simply remain standing.

### Power struts:

The umbrella struts made of strong 60 x 30 mm aluminum with additional U-reinforcements ensure wind stability even at high spans.

## About Caravita

---

CARAVITA is regarded as the leading brand for high-quality sunshades and sun sails and as a synonym for quality and design. With spans of up to seven meters, the noble large umbrellas create space for all conceivable uses and, thanks to an exceptionally robust construction, can withstand even high wind loads. Innovative mechanisms open each umbrella size as smoothly as on the first day, even after years of use, and ensure easy and convenient handling. CARAVITA parasols are characterized by handcrafted, made-to-measure production. The complete selection of fabric and frame colors can be individually combined. This guarantees - in connection with many other brilliant extras - the fulfillment of highest demands in gastronomy, hotel business and in the private garden.

- Individual design: over 130 fabric and 200 frame colors according to the customer's wishes.

# Product information

- Durable products: Due to high-quality aluminum and stainless steel components
  - Innovative mechanics: Ensures smooth operation for years to come
  - High stability: Thanks to above-average wall thickness of pole and struts
  - Special shapes made to measure with the Big Ben Freestyle
- The living space grows out into the open. Eating, drinking, celebrating, laughing or working outside - there are no limits to individuality. No matter whether on the private balcony or the cozy restaurant terrace. Even in spring, when the first warm rays of sunshine entice people outside, they want to enjoy additional comfort. Indispensable for leisure time in the green are well thought-out trend products in the field of sun protection. This is the only way to create new favorite spots and make outdoor living a year-round pleasure.
- Off-the-peg sunshades? Not at CARAVITA. After all, your requirements and needs are also quite individual. That's why each of our sunshades is custom-made. See for yourself how, with over 30 years of experience and a lot of passion, a high-quality shade provider is created.
