Product description

ATMOSPHERA lounge table LODGE

Structure made of solid Asian TEAK; the Gres top is available in two colors. The two surfaces have a natural look and a soft feel that give the collection sophistication and character.

Structure: natural Indonesian teak

Atmosphera uses natural Indonesian teak that has been treated with oil for outdoor use. Over time, the honey color of the teak becomes silvery as the natural outdoor weathering causes an oxidation process of the outermost layer of the exposed surface.

To restore the color to its original honey hue, simply clean the surface with water and neutral soap and remove impurities with a hard bristle brush. It is also recommended to use teak oils to restore the natural softness and hydration of the wood. See maintenance kit.

Table top: FINE STONEWARE

Porcelain stoneware is Atmosphera's new elegant finish for the Zeta, Lodge and Frisbee collection. By compacting pure materials such as clay and minerals at high temperatures, without the addition of synthetic resins or chemical substances, a resistant, non-porous material is created. The stone surface feels natural and supple and gives the collection grandeur and character.

The natural fossil stone Mactan Stone has a timeless, elegant presence.

about Atmosphera

Product information

ATMOSPHERA is an outdoor design brand and has been a reference point for the international market for over 20 years, dictating style and refinement. It continually searches for innovative solutions, exploring multiple situations, complex markets and different cultures: from the home environment to hospitality spaces, from the world of wellness to the care of public spaces in a professional environment.

Living rooms, contemplative places, dining rooms and workplaces, commercial and public spaces, up to the most intimate corners of houses and their alcoves: a roundup of scenes and atmospheres, rather than objects. Scenes of stories where the protagonists have left traces of their presence, but above all the staging of what they have accomplished in that environment.
From resting under the shade of a tree to concentrated study for hours, from contemplation to refreshment, from solitude to sharing in company.
