Design by Atmosphera Creative Lab

Product description

ATMOSPHERA ALBA collection

The use of aluminum makes the Alba luminaire an elegant and robust object. It is perfect for complementing other products in the Atmosphera collection.

The aluminum structure is powder-coated in white or graphite, which ensures an impact- and scratch-resistant surface. The luminaire can remain outdoors all year round and is easy to clean.

about Atmosphera

ATMOSPHERA is an outdoor design brand and has been a reference point for the international market for over 20 years, dictating style and refinement. It continually searches for innovative solutions, exploring multiple situations, complex markets and different cultures: from the home environment to hospitality spaces, from the world of wellness to the care of public spaces in a professional environment.

Product information

Living rooms, contemplative places, dining rooms and workplaces, commercial and public spaces, up to the most intimate corners of houses and their alcoves: a roundup of scenes and atmospheres, rather than objects. Scenes of stories where the protagonists have left traces of their presence, but above all the staging of what they have accomplished in that environment. From resting under the shade of a tree to concentrated study for hours, from contemplation to refreshment, from solitude to sharing in company.
