Product description

Iris is like an inner sun that creates a special atmosphere in any room. Its light shines with impressive intensity, yet remains soft and pleasantly diffuse, similar to the glow of a distant star. The lampshade of the Iris wall light is covered with an elegant textile band, which not only creates an aesthetically pleasing look, but also harmoniously supports the diffusion of light.

In recent years, the Iris luminaire series has become firmly established thanks to continuous further development and creative design. Various versions have been created that offer the right lighting solution for every situation. These include not only the versatile wall lights, but also stylish floor, pendant and table lamps. This variety makes it possible to use the Iris range to create a consistent and harmonious lighting design in a wide range of living and working areas.
