Product description

The table top, which consists of layers of wood glued together and has a soft contour at the edges, is then veneered with different types of wood. A careful finish with glossy or matt polyester lacquer completes the surface of the top. The underside is fitted with two large drawers, which can be either lacquered or made of wood essence on the front. The horizontal element of the table is supported by two legs in tempered bronzed glass, which lighten the product aesthetically and give it a more airy appearance. The footrest and metal feet, which are available with various galvanic finishes, enhance the overall appearance of the product.

An additional accessory is a shaped and lacquered metal shelf for storing items, which can be positioned to the right or left of the worktop.

about Capital

A home that is second to none: the most extraordinary place of all.

The Capital Collection begins with creative design work in-house and goes through all phases of material research and production. The brand is not based on an industrial production concept, but on artisanal methods that operate independently of specific materials and technologies. These methods are based on in-house production cycles that are based entirely on craftsmanship.

Custom tailoring of the modern classic

For us, bespoke luxury is when the design meets the personality of the customer, resulting in an individually crafted product that belongs exclusively to them. Such a product can tell others something about you - about your personality, your taste, your ambitions and your attitude to life. It can be an invisible, silent emotion that communicates with you, and you can feel its exclusive charm. Capital Collection produces emotional and luxurious products, creating a concept for an exquisite lifestyle. Every Capital product in your home connects with the vibrations and soul of its inhabitants. The imperfections of materials, essences, fabrics and marble become a recognizable expression of reality. An expression of the cultural identity that each of us carries within us.

NEW LUXURY TAKES FROM

The innovative machineries used to manufacture items of the Capital collections mould wood respecting its nature and grant extreme precision of details.

In addition to that the irreplaceable work of master craftsmen gives Capital projects the allure of unique handmade items.

As a consequence, the final product comes from the craftsmanship's method that is as rare as precious while innovation is constantly applied to production techniques with the aim of perfecting woodworking focusing to detail.

Capital creates products that are contemporary, functional with an unmistakable stylish and all these elements characterize the company, together with the use of sophisticated machine tools and latest generation production technologies such as galvanizing process of metals or the creation of items upholstery. Capital's materials par excellence. They are different one from each other in texture and colour, come from quarries in Italy or abroad, are carefully selected and processed with cutting-edge technologies.
