Product information

Panama brings design back to its most authentic essence, combining purity, simplicity and elegance in a single vision. The natural teak structure is resistant and durable, characterized by circular and rounded cuts that frame the surface of ceramic lava slabs.

Dimensions / Technical Data:

Approx. dimensions: length 110cm, width 69cm, height 32cm

Structure: Teak

Table top: Glazed slip casting with a choice of smooth or grooved surface

Further properties:

Suitable for indoor and outdoor use

Very suitable for professional use

UVI-resistant

Durable

100% reusable

Available accessories: impregnated protective cover, beige color, water, oil and dirt repellent

Design by Atmospha Creative Lab

Product description

ATMOSPHERA PANAMA lounge table

Table top: Glossy Glazed Ceramic

This element was produced by slip casting. In this manufacturing process, slip is poured into a plaster mold, which removes the moisture and enables a certain wall thickness of the clay to be achieved.

The processed blank is left to dry to the perfect degree. The blank is then fired at over 1000°C to produce the so-called "body". The body can now be glazed with the spray gun in the available colors and is fired a second time at approx. 980°C. If the glaze is as

Product information

desired, the piece is finished,

Slip casting is a method in which clay is poured into a mold. The slip is a free-flowing mixture of water and clay.

Structure: TEAK

Atmosphera uses natural Indonesian teak that has been treated with oil for outdoor use. Over time, the honey color of the teak becomes silvery as the natural outdoor weathering causes an oxidation process of the outermost layer of the exposed surface.

To restore the color to its original honey hue, simply clean the surface with water and neutral soap and remove impurities with a hard bristle brush. It is also recommended to use teak oils to restore the natural softness and hydration of the wood.

about Atmosphera

ATMOSPHERA is an outdoor design brand and has been a reference point for the international market for over 20 years, dictating style and refinement. It continually searches for innovative solutions, exploring multiple situations, complex markets and different cultures: from the home environment to hospitality spaces, from the world of wellness to the care of public spaces in a professional environment.

Living rooms, contemplative places, dining rooms and workplaces, commercial and public spaces, up to the most intimate corners of houses and their alcoves: a roundup of scenes and atmospheres, rather than objects. Scenes of stories where the protagonists have left traces of their presence, but above all the staging of what they have accomplished in that environment.

From resting under the shade of a tree to concentrated study for hours, from contemplation to refreshment, from solitude to sharing in company.
