4.405,50 €

Regular retail price ~~4.895,00-€~~ (you save 489,50 €)

incl. 19% VAT incl. Shipping

■ Delivery time: 10 - 13 weeks

Product information

Dimensions / Technical data:

Approx. dimensions: 300x300cm (passage height 234cm, total height 272cm)

Frame: matt anodized aluminium. Other finishes at an extra charge, see selection

Pole: Ø 74mm (total diameter 107mm)

Opening system: Manual opening with gas piston

Covering: TUUCI class "B", acrylic awning fabric, manufactured by Sunbrella®, mildew, dirt & water resistant. Class "C" cover can also be selected as an option for an additional charge.

Fabric color: See color palette

Required parasol stand weight: Minimum 127 KG

Included in the scope of delivery: Wind cover

Available accessories:

Galvanized square MAX steel plate 2 x doubled 127 KG, (76x76cm) including sleeve

MAX stainless steel ground sleeve for setting in concrete incl. concrete anchor & screws

Base plate for screwing onto existing foundation incl. 8 concrete anchors

Protective cover made of polyester, dark gray

Special feature: 5-year manufacturer's guarantee on the structure and 15 years on the fabric if the Tuuci care instructions are followed

Product description

The Bay Master M1 Single Cantilever combines elegant design with functional sophistication in a compact and robust form. As a smaller version of the MAX Cantilever series, it impresses with a well thought-out concept and excellent materials. The sunshade is stabilized by stainless steel connections and aluminium struts, ensuring durability and resistance. The exclusive "Lift-Assist" shading system from Tuuci® enables effortless handling of the sunshade and ensures ease of use, whatever the weather.

Special features of the Bay Master M1 Single Cantilever:

- **Compact size:** the smaller design makes this cantilever parasol the ideal choice for smaller patios or gardens.
- **Robust construction:** Stainless steel connections and aluminum struts ensure high stability and durability, even in changeable weather conditions.
- **"Lift-Assist" system:** Tuuci®'s unique shading system makes it easy to open and close the sunshade without much effort.
- **Exclusive design:** The modern design adapts stylishly to any outdoor environment while offering functional shade solutions.
- **Versatile application:** Ideal for use in gardens, on patios or in small outdoor areas, the Bay Master M1 Single Cantilever provides pleasant shade and exceptional comfort.

The Bay Master M1 Single Cantilever offers you a stylish, functional and durable shading solution for any outdoor environment. With its compact size and high-quality materials, it is the perfect choice for demanding outdoor areas.

Product information

Tuuci Care Instructions

TUUCI frames are made from durable, weather-resistant materials that are also used in boat building, including fiberglass, Armor-Wall aluminum, Dura-TEAK composites, Aluma-TEAK aluminum, and hardwood from sustainable sources. All connectors (nuts, bolts, wheels, clamps, etc.) are made from marine-grade stainless steel with the highest corrosion resistance. Proper maintenance and care are important to extend the lifespan of all TUUCI products. Clean your TUUCI shading equipment weekly with fresh water to maintain its appearance and prolong its lifespan.

Before opening, ensure the shading structure is securely mounted in the appropriate stand using the locking system designated for the specific product (star grip, safety pin, or locking lever).

To open a TUUCI umbrella, extend each rib 15cm away from the umbrella mast before fully opening the umbrella. If the umbrella resists when opening, do not force it. When closing, pull the fabric out from between the ribs to avoid pinching or damaging the TUFF-SKIN fabric.

Although many TUUCI designs have been tested for stability in winds over 80 km/h, we recommend exercising caution and using common sense under extreme wind and weather conditions. TUUCI recommends closing foldable shading systems when wind speeds exceed 40 km/h. Since gusts can reach much higher speeds (especially in storms), using a stable and heavy stand is crucial for safe operation. The stability of TUUCI shading products in strong winds and adverse weather depends directly on the size, weight, and safety of the stand, as well as the intended stability of the frame under the wind conditions. Please exercise caution and use common sense to determine when to close the umbrella. Please contact TUUCI customer service or the technical department if you require shading and stand systems that are guaranteed to withstand wind speeds over 40 km/h.

Umbrella Stand

BEFORE OPENING THE UMBRELLA, ALWAYS ENSURE THE CENTER MAST IS SECURELY ANCHORED IN THE STAND. Regularly clean the surface of the stand to maintain its attractive appearance. Use a mild cleaner, water, and a soft cloth or sponge for cleaning. Regularly check that the screws are securely fastened in the stand plate. If the stand is moved frequently, perform this check weekly.

Do not roll Aluma-Crete stands (aluminum stands filled with concrete) sideways, as this can damage the surface or coating. Touch up the surface of the stand as needed with outdoor-grade paint. You can order touch-up paint from TUUCI as a spare part. Mobile umbrella stands are designed for use on flat surfaces. Move the stand cautiously on uneven surfaces. Avoid rolling the base over steps or distances greater than 15 meters to prevent damage to the welded wheel suspension.

Tuff-Skin Fabric, Curtains, and Tension Walls

TUUCI's TUFF-SKIN umbrella fabrics are made from the toughest and most advanced fabrics and yarns used in the marine industry (including: Sunbrella Marine and Awning Fabrics, Weathermax, Ferrari Fabrics, Dickson Acrylic Fabrics, Weblon, Regatta, Gortex, and other proven high-quality, UV-resistant materials). TUUCI TUFF-SKINS should be cleaned regularly to prevent dirt accumulation that could become embedded in the fabric. The fabric can be cleaned directly on the frame. Simply brush off loose dirt. Rinse the fabric with a hose, and clean it with a warm mild soapy solution (max 38°C). Rinse the soapy solution thoroughly. Allow the fabric to air dry. Do not use aggressive cleaners.

For stubborn stains, use a mild soapy solution, adding 240ml of bleach to 4 liters of water. Treat the spot with a soft brush, sponge, or clean towel. Allow the fabric to air dry. This cleaning method may partially remove the waterproofing. If the umbrella needs to be water-resistant, treat it afterward with an air-drying water-repellent treatment (e.g., SM waterproofing).

Product information

Sunbrella® fabrics are machine washable but must be reproofed after washing to restore water resistance. Sunbrella® fabrics are made from 100% acrylic fibers. They are heat-sensitive and can melt at high temperatures. Do NOT wash or clean the fabric with excessively hot water, as the fabric may shrink. DO NOT USE A STEAM IRON OR HOT AIR DRYER; instead, allow the fabric to air dry. When storing the umbrella over the winter, clean the TUFF-SKIN fabric and allow it to air dry thoroughly, then store it in a clean, well-ventilated place. To extend the lifespan, use a TUUCI cover when the umbrella is not in use.

about Tuuci

For more than 25 years, TUUCI has been designing the most innovative and trendiest shading systems in the industry. Founded out of the passion of Dougan Clarke, TUUCI’s designs are inspired by boat building.

This means that all TUUCI umbrellas, lounges, and canopies are carefully crafted to perform in all circumstances. But that’s not all. With their unique style and beautiful design, they captivate as an unparalleled focal point.

See for yourself by exploring the diverse range. You will quickly realize that TUUCI is committed to creating the purest form of natural comfort: a pleasant place in the shade. With their exceptionally durable, 100% replaceable parts and exquisite design, TUUCI’s umbrellas, pavilions, and lounges offer a unique shading experience. TUUCI is present globally in the USA, Europe, East Asia, and South America. Their mission is to extend the shade that nature has already provided. TUUCI products are handcrafted and inspired by the marvelous forms and natural beauty of nature.

TUUCI uses environmentally friendly processes from manufacturing to recycling. In addition, TUUCI is deeply involved in the community by supporting dozens of non-profit organizations.

And that’s just the beginning. As you browse through the products, you will quickly realize that TUUCI is deeply committed to creating the purest form of natural comfort: a pleasant place in the shade.
