Bitte bei dem Merkmal „Bodenstand“ auf „**ändern**“ klicken und gewünschte Befestigung auswählen.

Plattenständer MONACO: → weitere Infos

100x100 cm, Stahl verzinkt, mit Ausgleichsschrauben für Betonplatten 40x40x5 cm. Auf Wunsch mit Rollen und Abdeckung.

bis 3,5 m → 4 Platten

bis 4 m → 8 Platten

bis 5 m → 16 Platten

## **Bodenhülse Pianura K:**

Zum Einbetonieren, 35 cm lang. Der Schirm wird direkt verschraubt. Ebenerdiger Abschluss. Für vollbetonierte Flächen

## **Bodenhülse Pianura L:**

61 cm lang. Der Schirm wird direkt verschraubt. Für gepflasterte Böden oder Mischböden mit Erdreich, Sand oder Hohlräumen.

### **Erforderliches Fundament für Bodenhülse PIANURA K + L:**

bis 4 m → 40x40x80 cm

bis 6 m → 60x60x80 cm

## Product information

---

### **Bodenhülse Europa K:**

Edelstahl-Bodenhülse 25cm lang zum Einbetonieren. Das obere Teil der Bodenhülse kann abgenommen werden. Standardlösung für Betonfundamente.

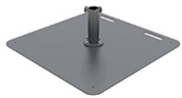

### **Bodenhülse Europa L:**

Edelstahl-Bodenhülse 50cm lang zum Einbetonieren. Das obere Teil der Bodenhülse kann abgenommen werden. Für gepflasterte Böden oder Mischböden mit Erdreich, Sand oder Hohlräumen.

### **Erforderliches Fundament für Bodenhülse EUROPA K + L:**

bis 4 m → 40x40x80 cm

bis 6 m → 60x60x80 cm

### **Bodenplatte OSLO:**

Pulverbeschichtet, 70x70x1 cm, Stahlplatte mit Anschraubständer zur Verschraubung am Fundament. Eigengewicht 42 kg:

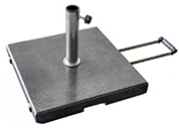

### **Bodenplatte GENF:**

Pulverbeschichtet, 100x100x1 cm, Stahlplatte mit Anschraubständer zur Verschraubung am Fundament. Eigengewicht 85 kg:

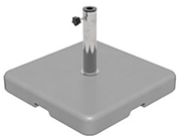

## Product information

---

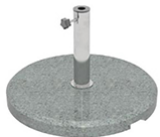

### Rimin:

Beton Schwarz, mit Rollen und Griff. 55x55x8 cm, 55 kg.

### Paris:

Betonständer mit Griffmulden, Edelstahlrohr. 59x59x12 cm, 85 kg.

### Rom:

Granitständer, poliert, Edelstahlrohr. Ø 70 cm, 90 kg.

**MULTICUB:** Stahlkörbe passend für die Plattenständer Monaco und Dublin oder als Komplett-Set  
Gabionen-Schirmständer mit Sitzfunktion. HPL-Sitzauflage. Sitzhöhe 54 oder 84 cm.

### Test

---

Approx. dimensions: 2.00 × 2.00 meters

Canopy wreaths: Impact-resistant, UV-stabilized plastic wreath in anthracite

## Available fabric colors

---

### Premium Acrylic Awning Fabric:

The high-quality acrylic awning fabric is made of 100% solution-dyed branded acrylic. Unlike conventional yarn dyeing, the color pigments are incorporated directly during the fiber production process. This ensures highly reliable protection against harmful UV radiation while maintaining long-lasting, vibrant, and lightfast colors.

The robust acrylic fabric also impresses with its high tear resistance. A special protective finish makes the material water- and dirt-repellent. This provides a durable and proven solution for long-term outdoor use.

#### Fabric Specifications

- Waterproof 300 – 460 mm water column, EN 20811
- High color and weather fastness (7 – 8 of 8)
- Water- and dirt-repellent
- 100% acrylic 285 – 300 g/m<sup>2</sup>
- Custom branding on canopy and valance possible

**Many fabrics are also available in All Weather quality. Waterproof up to 1000 mm water column, EN 20811.**

### Premium Acrylic ProNature:

With Acryl ProNature, CARAVITA presents an innovative fabric option with added value: a special finishing treatment actively contributes to improving air quality. Through a photocatalytic process, pollutants such as nitrogen oxides, sulfur oxides, and organic compounds are reduced – while unpleasant odors are neutralized at the same time.

This creates a noticeable contribution to greater sustainable quality of life outdoors. In terms of durability, weather resistance, and technical performance, Acryl ProNature fully matches the proven classic acrylic fabric.

- Waterproof 300 – 370 mm water column, EN 20811
  - High color and weather fastness (7 – 8 of 8)
  - Water- and dirt-repellent
-

## Tempoteststar FR:

The Tempoteststar fabric collection by PÀRA consists of a flame-retardant textile certified according to the recognized fire protection class B1. The high-quality, 100% solution-dyed polyester is available in a wide range of colors and is particularly suitable for applications where fire safety requirements play a central role.

- Flame-retardant, fire protection class B1 (DIN 4102)
- Oil-, water-, and dirt-repellent
- High color and weather fastness (7 – 8 of 8, DIN EN ISO 105 B04)
- Waterproof 280 – 300 mm water column, UNI EN 20811
- 100% solution-dyed polyester 300 g/m<sup>2</sup>

## Ferrari Precontraint 302

This PVC-coated sun protection membrane is characterized by exceptional durability and strength. It is completely waterproof and meets high flame-retardancy standards – properties that prove particularly valuable in demanding outdoor environments.

- Not suitable for Big Ben Freestyle, Belvedere, Grande
- Flame-retardant, fire protection class B1 (DIN 4102)
- Polyester fabric with PVC coating
- Completely waterproof
- Dirt-repellent
- High color fastness (7 – 8 of 8, DIN EN ISO 105-B02)
- Surface weight 480 g/m<sup>2</sup>
- Custom branding on canopy and valance possible

## Options & Accessories

---

### Wind roof and wind vent:

**Wind vent:** The sewn-in vent lies on the canopy, lifts in the wind and reduces wind load.

**Wind roof:** Features an additional frame. Enhances the appearance and improves wind resistance. Heat can escape upwards, preventing heat build-up.

### Valance types:

**Flowing valance:** Seamless transition from canopy to valance without a visible edge. Moves in the wind.

**Attached valance:** Visible edge between canopy and valance. Side sections are connected, reducing movement – ideal for advertising umbrellas.

---

# Product information

---

**Protective cover in PVC** (light grey)

**Protective cover in acrylic** (light grey or matching canopy color)

**Cover rod:** Telescopic rod for easy handling when placing the cover.

**Mast protection padding:** Height 90 cm, padding thickness 4 cm, fastening with Velcro.

**Base protection padding**

**Accessories such as heaters, integrated lighting and motor drives are available for BIG BEN series umbrellas.**

## About Caravita

CARAVITA is regarded as the leading brand for high-quality sunshades and sun sails and as a synonym for quality and design. With spans of up to seven meters, the noble large umbrellas create space for all conceivable uses and, thanks to an exceptionally robust construction, can withstand even high wind loads. Innovative mechanisms open each umbrella size as smoothly as on the first day, even after years of use, and ensure easy and convenient handling. CARAVITA parasols are characterized by handcrafted, made-to-measure production. The complete selection of fabric and frame colors can be individually combined. This guarantees - in connection with many other brilliant extras - the fulfillment of highest demands in gastronomy, hotel business and in the private garden.

- Individual design: over 130 fabric and 200 frame colors according to the customer's wishes.
- Durable products: Due to high-quality aluminum and stainless steel components
- Innovative mechanics: Ensures smooth operation for years to come
- High stability: Thanks to above-average wall thickness of pole and struts
- Special shapes made to measure with the Big Ben Freestyle

The living space grows out into the open. Eating, drinking, celebrating, laughing or working outside - there are no limits to individuality. No matter whether on the private balcony or the cozy restaurant terrace. Even in spring, when the first warm rays of sunshine entice people outside, they want to enjoy additional comfort. Indispensable for leisure time in the green are well thought-out trend products in the field of sun protection. This is the only way to create new favorite spots and make outdoor living a year-round
