incl. 19% VAT incl. Shipping

 Delivery time: 3 - 4 weeks

Product information

Dimensions / Technical Data:

Approx. dimensions: Length 162cm, height 140cm, width 31cm, light head Ø 6cm, L - 18cm, $\pm 30^\circ$ tiltable and $\pm 150^\circ$ rotatable

Light source: LED module 12.7 Watt, L90(10k) > 61,000h (IES LM-80 / TM-21), RA > 90 (type 92), beam angle 24°

Structure: Powder-coated aluminum

Color structure optional:

Blue

gray

black

Light color optional:

2700 Kelvin

3000 Kelvin

4000 Kelvin

Control: Dimmable with push-button switch and memory function

Cable: with angled plug, length 3.40 m

Special feature:

Head can be tilted $\pm 30^\circ$ and rotated $\pm 150^\circ$

Luminaire axis can be rotated by $\pm 60^\circ$

Tilt height max. 2500 mm, $\pm 83^\circ$

Design: Sauerbruch Hutton

Delivery: INCLUDES light source

Product information

Product description

Heron floor lamp by Sauerbruch Hutton - the lighting acrobat

The Heron floor lamp impresses with a perfect balance of functionality and design. With its delicate swivel arm and balanced counterweight, the light cone can be precisely controlled - whether for reading, working or for targeted room lighting.

The feather-light mobility of the arm and luminaire head makes the Heron luminaire the ideal companion for flexible lighting requirements. The push-button switch with memory function integrated into the vertical bar allows the light intensity to be conveniently adjusted as required.

Design by Sauerbruch Hutton, implemented with technical sophistication and a clear design language - the Heron free-standing luminaire is more than just a light source: it is a statement for modern lighting design.

About Mawa Design

Mawa Design was founded in 1977 by Martin Wallroth. In the company, which was then located in Kreuzberg, he developed and produced objects for the living area. In the following years, the one-man business expanded and established itself as a professional company. During this time, Mawa Design designs often took a pioneering role for formative ideas in the field of product design. To this day, the unusual combination of design office and manufactory contributes significantly to the company's success.

The eighties made understanding and interest in design popular. Mawa Design therefore broke new ground. In cooperation with external designers, product ideas for everyday life could be designed and quickly implemented due to the flexible structure of the company. The product range finds its customers mainly in the upscale retail trade.

In addition to the standard program of the manufactory, special productions according to individual specifications can of course also be realized. For example, luminaires have been produced for the Federal Chancellery, the Ministry of Economics, the Corbusier House, the Maxim Gorki Theater in Berlin or for the Luther House in Wittenberg. Renowned companies such as BMW, Daimler Benz, Jil Sander, Hotel Bleibtreu, KaDeWe, Sony or The Conran Shop work with Mawa Design when it comes to first-class lighting. Mawa products, which are characterized by high-quality materials and excellent workmanship, have been included in important collections of museums around the world.

Green light for further growth. With its own design department, research and development, as well as its own lighting laboratory, the company is now one of the preferred partners of internationally active specialist planners. mawa design has advanced from being an insider tip to a leading brand in the contract sector, especially in museums, libraries, sacred buildings and monuments with minimalist lighting tools. A new branding with a striking logo reflects the far-reaching importance of the company in the professional world. Here, too, the following applies to the design: less is more. And so in 2017, the brand name is also reduced to two syllables - mawa design becomes mawa. Only color and attitude remained unchanged green.
