Product description

Ulm furniture collection designed by Ramón Esteve for Vondom is conceived as a new standard with a universal and logical appeal. A functional seating collection that creates a perfect balance between design, technology and ergonomics based on the basic shapes of cube, prism and sphere. The Ulm collection seeks unity in its design and that of other products, combining various elements into a complete ensemble. The sofa, as well as the chairs, the daybed, the coffee table and the ottoman, has rigid and elastic structures for rest and support, providing absolute comfort. The furniture collection also includes the Ulm lamp, the modular sofa and the other daybed versions. Much like the Ulm name, its soft shapes pay homage to the formal approach of the Ulm School. The possibility of lighting each piece can wrap any room in color and offers innovative technology that makes it unique.
