Product description

The Ocean Master MEGA MAX Classic by TUUCI is a premium parasol designed for large-scale shade and demanding outdoor spaces. With a span of 4.9 × 4.9 meters, it combines elegant design, advanced engineering, and exceptional stability. This model has been specially developed for professional use and is ideal for hotels, restaurants, educational institutions, and prestigious private projects.

Strength and Durability

The robust 13.3 cm mast with a four-channel marine-grade aluminum extrusion ensures maximum stability. The parasol withstands wind speeds up to 72 km/h and resists gusts up to 120 km/h. Thanks to its low-maintenance construction, the MEGA MAX impresses with an extended service life, which also reduces environmental impact.

Precision in Detail

The patented stainless steel Vision Hub design guarantees maximum durability and a sleek appearance. Ribs with a diameter of 5.1 cm provide reinforced stability and securely support the large canopy. Every component is engineered for longevity and resilience.

Convenient Operation

The integrated telescopic mast allows effortless opening and closing over furniture. The EasyDrive crank system with a self-lubricating spindle mechanism ensures smooth handling, even with this extraordinary size.

Custom Options

For added comfort, the MEGA MAX can be equipped with Ambia LED lighting (dimmable, up- and downlight) or powerful infrared heaters. This transforms any outdoor space into an exclusive retreat regardless of time of day or season. The TUUCI Ocean Master MEGA MAX Classic 4.9 × 4.9 m is the perfect choice for projects that demand the highest standards of quality, functionality, and design.
