Product description

The Ocean Master MEGA MAX Classic 5.5 m from TUUCI is the logical further development of the world's leading large parasol collection. With a diameter of 5.5 meters, this premium parasol sets new standards in the field of luxurious outdoor shading. It combines timeless elegance, technical precision and exceptional stability - created for outdoor areas that place the highest demands on quality, functionality and design. Parasols of this size and class are rare and make their owners part of an exclusive elite in outdoor living.

Luxury in impressive dimensions

With its span of 5.5 meters, the MEGA MAX Classic offers shade that is second to none. The solid 13.3 cm pole made of marine aluminum with four-channel extrusion guarantees maximum strength and durability. Even in strong winds of up to 72 km/h and gusts of up to 120 km/h, the sunshade remains stable. This exceptional level of stability and safety clearly sets the MEGA MAX apart from conventional sunshades.

Premium-level design & technology

The patented Vision-Hub design made of stainless steel combines elegance with robustness and underlines the luxurious character of the sunshade. Ribs with a diameter of 5.1 cm provide increased load-bearing capacity for the large sunshade canopy and ensure maximum reliability. Each individual component is designed for an extremely long service life to meet the high demands of commercial and private premium customers.

Exclusive operation

Thanks to the integrated telescopic mast, the sunshade can be easily opened and closed over existing furniture. The EasyDrive crank system with self-lubricating spindle mechanism ensures smooth and comfortable handling - even with this extraordinary dimension. Operation is intuitive, fast and designed for maximum user-friendliness.

Optional equipment for maximum comfort

The Ocean Master MEGA MAX Classic 5.5 m can be individually extended to transform any outdoor area into a luxurious oasis of well-being. Dimmable Ambia LED lighting (uplight and downlight) and powerful infrared radiant heaters are optionally available. This combination makes the sunshade not only a provider of shade, but also an exclusive all-rounder for any time of day and any season.

Product information

Exclusivity for special projects

The TUUCI MEGA MAX 5.5 m is not just a sunshade, but an architectural statement. Parasols like this are only used in selected projects worldwide - from luxury hotels and upscale restaurants to private villas. Anyone who chooses the MEGA MAX is not only choosing the highest quality, but also a piece of exclusivity that is reserved for only a few.
