Product description

The Ocean Master MEGA MAX Classic 6.0 m by TUUCI represents the pinnacle of modern parasol engineering. With an impressive span of 6 meters, it is among the largest premium parasols worldwide and makes an architectural statement in any outdoor space. It is designed for demanding projects that seek not only functional shade but also a visible symbol of luxury and exclusivity.

Dimensions that impress

With its 6-meter span, the MEGA MAX Classic provides shading far beyond conventional standards. The massive 13.3 cm mast made of marine-grade aluminum with a four-channel extrusion ensures exceptional stability. Even in wind speeds up to 72 km/h and gusts up to 120 km/h, it demonstrates strength and safety. This level of robustness makes the MEGA MAX Classic 6.0 m a true benchmark in the luxury sector.

Premium design in every detail

The exclusive stainless steel Vision Hub design combines a sleek appearance with maximum durability. The reinforced ribs with a diameter of 5.1 cm support the monumental canopy securely. Every detail is designed for longevity – a quality standard that positions TUUCI at the top of luxury parasols worldwide.

Comfort despite size

Despite its impressive dimensions, the 6.0 m MEGA MAX Classic is easy to operate. The integrated telescopic mast allows smooth opening and closing over furniture. The EasyDrive crank system with a self-lubricating spindle mechanism ensures effortless handling, reflecting the premium standard even in operation.

Luxurious upgrades

Optionally, the parasol can be equipped with dimmable Ambia LED lighting (up- and downlight) and powerful infrared heaters. This transforms it into a multifunctional outdoor highlight, offering maximum comfort at any time of day and in any season.

The ultimate statement

The Ocean Master MEGA MAX Classic 6.0 m is more than just a parasol – it is an architectural landmark for outdoor spaces where luxury, exclusivity, and design at the highest level are required. Only a few projects worldwide feature parasols of this dimension,

Product information

making it a true rarity. Choosing this model means opting for the maximum in prestige and individuality in outdoor living.
