Product description

The Ocean Master MEGA MAX Classic 7.3 m by TUUCI is the absolute pinnacle in the field of large-format umbrellas. With a span of 7.3 meters, it ranks among the largest free-standing premium parasols worldwide, transforming any outdoor area into an architectural highlight. This model is designed for projects demanding maximum dimensions and the highest exclusivity – from expansive hotel terraces and resorts to prestigious outdoor lounges.

Monumental size with technical precision

The impressive 7.3-meter span places the highest demands on construction and materials. The massive mast with a diameter of 13.3 cm and four-channel marine-grade aluminum extrusion ensures stability and resilience even at this scale. Due to its weight, the MEGA MAX Classic 7.3 m requires a specially adapted base structure to guarantee safety and balance.

Durability and longevity

Like all models in the MEGA MAX series, the 7.3 m version is engineered for extreme conditions. The umbrella withstands wind speeds of up to 72 km/h and gusts of up to 120 km/h. The patented Vision Hub system made of stainless steel and reinforced ribs with a 5.1 cm diameter reliably support the vast canopy for years of use. Every detail is designed for maximum service life and minimal maintenance.

Comfortable operation despite its size

Despite its monumental dimensions, the MEGA MAX Classic 7.3 m remains easy to handle. The integrated telescopic mast allows opening and closing above existing furniture. The robust EasyDrive crank system with self-lubricating spindle mechanism ensures smooth operation, in line with the premium quality of this model.

Custom extensions

Optionally, the umbrella can be equipped with Ambia LED lighting (up- and downlight, dimmable) and powerful infrared heaters. This transforms the umbrella into a multifunctional solution offering all-day comfort and exclusive atmosphere – regardless of time of day or season.

Exclusivity at the highest level

Product information

The Ocean Master MEGA MAX Classic 7.3 m is not an ordinary umbrella but a prestige object used worldwide only in selected projects. Its extraordinary size, weight, and the need for special base solutions emphasize the uniqueness of each installation. Choosing this model means opting not only for the largest TUUCI umbrella but also for a symbol of luxury, strength, and individuality in outdoor living.
