Fabrice Berrux

Product description

10 heures 10 - Iris Mirror - the shining sun for your interior

Iris is like an inner sun that creates a special atmosphere in any room.

Its light has an impressive intensity, yet remains soft and pleasantly diffuse - like the glow of a distant star. The lampshade consists of a white textile band that ensures harmonious light diffusion and an elegant look.

Product information

The **Iris Mirror wall and ceiling light** combines this poetic radiance with modern technology: a central **mirror disc** subtly reflects the light, while the **integrated, dimmable LED technology (TRIAC)** emits warm white light (2700 K). **DALI or CASAMBI controls** are optionally available.

Made of **white lacquered and mirror-polished steel**, the series stands for quality, durability and timeless design. In recent years, the **Iris collection** has continued to evolve - with pendant, floor and table lamps that together enable a consistent, stylish lighting design.

about Dix heures Dix

Behind the name Dix heures Dix hide the two designers Catherine Grandidier and Fabrice Berrux. The Dix heures Dix manufactory clearly reflects this dichotomy. Unusual color combinations and the use of unusual materials are the hallmark of Catherine Grandidier's lamps. Following the success of textile collections such as La Colonne, dix heures dix has deliberately chosen to use modern, innovative and high-quality materials (Tyvek®, Dibond®, Corian®, etc.) for its latest creations. By mixing architectural, artistic, plant or fashion inspirations, the two designers (Fabrice Berrux and Ludovic Roth) strive to invent a narrative light where each product tells its own story.

The balance between the rigorous approach of industrial design and the wealth of artisanal know-how allows Dix heures Dix, to produce innovative and high quality lighting solutions.
