Product information

A++

IP20 LED

Dimensions / Technical Data:

Approx. dimensions: Ø light head 7.6cm, depth 6.7cm, length of adapter depending on control module 16.2cm to 25.5cm

Adapter: The spotlight is suitable for use in the PRO-06 and PRO-R6 Powergear 3-phase tracks.

Light source: LED 12.7 Watt, Ra > 95, service life > 61000 hours / dim2warm LED 12 Watt, service life > 50000 hours

Optional color temperature:

2700 Kelvin warm white - 930 lumen

3000 Kelvin bright warm white - 980 lumen

4000 Kelvin neutral white - 1100 lumen

1800 - 3000 Kelvin dim2warm, - 1045 lumen

Beam angle: 20° - 50°

Material: powder-coated aluminum

Control optional:

Switchable (2700 - 3000 - 4000 Kelvin): 3-core power cable

DALI dimmable (2700 - 3000 - 4000 Kelvin): For 4- or 5-core power cable (control cable) required!

Casambi-Bluetooth dimmable (2700 - 3000 - 4000 Kelvin): Light control via app (3-wire power cable).

dim2warm DALI dimmable (1800-3000 Kelvin): For 4- or 5-core power cable (control cable) required!

dim2warm Casambi-Bluetooth dimmable 1800-3000 Kelvin): Light control via app (3-core power cable).

Optional color: See color selection

Special feature: Spotlight can be rotated 365° and swiveled 90

Product information

Available accessories: Heat sink: Black as standard. White oxide ceramic coating on request

Design: Jan Dinnebier & MAWA

Product description

POWER RADIATOR wi4-str2-fe

The Wittenberg 4.0 zoom luminaires extend mawa's renowned luminaire series with a versatile solution for precise and flexible accent lighting - ideal for residential and contract areas, exhibitions, galleries and retail.

With a simple turn of the focusing ring, the beam angle can be continuously adjusted from 20 to 50 degrees. This means that objects of all shapes and sizes can be perfectly illuminated. The Wittenberg 4.0 zoom luminaires offer an exceptionally wide range of applications - from targeted accent lighting to uniform area lighting - with maximum light quality and efficiency.

The light head impresses with a large, optimally glare-free light emission surface and can be swiveled 90° and rotated 350°, allowing maximum flexibility in lighting design.

Note: The products are suitable for use in the PRO-06 and PRO-R6 Powergear 3-phase tracks.

About Mawa Design

Mawa Design was founded in 1977 by Martin Wallroth. In the company, which was then located in Kreuzberg, he developed and produced objects for the living area. In the following years, the one-man business expanded and established itself as a professional company. During this time, Mawa Design designs often took a pioneering role for formative ideas in the field of product design. To this day, the unusual combination of design office and manufactory contributes significantly to the company's success.

The eighties made understanding and interest in design popular. Mawa Design therefore broke new ground. In cooperation with external designers, product ideas for everyday life could be designed and quickly implemented due to the flexible structure of the company. The product range finds its customers mainly in the upscale retail trade.

In addition to the standard program of the manufactory, special productions according to individual specifications can of course also be realized. For example, luminaires have been produced for the Federal Chancellery, the Ministry of Economics, the Corbusier House, the Maxim Gorki Theater in Berlin or for the Luther House in Wittenberg. Renowned companies such as BMW, Daimler Benz, Jil Sander, Hotel Bleibtreu, KaDeWe, Sony or The Conran Shop work with Mawa Design when it comes to first-class lighting. Mawa products, which are characterized by high-quality materials and excellent workmanship, have been included in important collections of museums around the world.

Green light for further growth. With its own design department, research and development, as well as its own lighting laboratory, the company is now one of the preferred partners of internationally active specialist planners. mawa design has advanced from being an insider tip to a leading brand in the contract sector, especially in museums, libraries, sacred buildings and monuments with minimalist lighting tools. A new branding with a striking logo reflects the far-reaching importance of the company in the professional world. Here, too, the following applies to the design: less is more. And so in 2017, the brand name is also reduced to two syllables - mawa design becomes mawa. Only color and attitude remained unchanged green.
