As these fabrics are not water-repellent, they can absorb water. For furniture with covers made of these materials, we recommend using them in protected areas such as under canopies, arcades, garden tents or other structures. The cushions will not be damaged if they are left outside during a downpour. However, we do not recommend leaving the cushions outside all the time. After a thunderstorm, you should allow the cushions to dry out completely.

CAT. C - LUXURY ACRYLIC FABRIC Dirt-repellent | The special finish on LUXUS fabrics makes it easier to remove stains. It preserves color and strength | 100% solution-dyed acrylic fibers are resistant to fading caused by sun, water and general weather conditions. Mildew resistant | Suitable even for very humid rooms such as bathrooms and screened porches as they do not allow mildew to form. Perfect for outdoor and indoor furniture (living room, children's room, kitchen). Cleaning instructions | Most stains on LUXURY covers can be cleaned with a mild soap and water solution. Simply remove the dirt by rubbing with water (no more than 40°C) and natural soap. Removable covers can be dry cleaned or machine washed in cold water, but without using the spin dryer. To restore the natural loss of oil and water repellency, it is advisable to use the spray available from your retailer. Do not iron with steam or dry with electric appliances. Air dry. Place the fabric in a dry and airy place during the winter season. Warranty | The LUXURY fabric comes with a three-year warranty. This guarantee covers the fabric becoming unusable due to exposure to sunlight, salt and general weather conditions. The guarantee does not apply to damage caused by improper handling.

## about Atmosphera

---

ATMOSPHERA is an outdoor design brand and has been a reference point for the international market for over 20 years, dictating style and refinement. It continually searches for innovative solutions, exploring multiple situations, complex markets and different cultures: from the home environment to hospitality spaces, from the world of wellness to the care of public spaces in a professional environment.

Living rooms, contemplative places, dining rooms and workplaces, commercial and public spaces, up to the most intimate corners of houses and their alcoves: a roundup of scenes and atmospheres, rather than objects. Scenes of stories where the protagonists have left traces of their presence, but above all the staging of what they have accomplished in that environment.  
From resting under the shade of a tree to concentrated study for hours, from contemplation to refreshment, from solitude to sharing in company.
