In our online store, we offer a selection of covers that are characterized by their ease of care and suitability for outdoor use. These covers are chosen 90% of the time because they offer an ideal combination of functionality, feel and comfort. You can easily make your selection using the “Vondom cover” feature.

Of course, we can offer you all covers from the Vondom collection on request. These covers, which are not available in our online store, are particularly suitable for use in regions with a predominantly sunny and dry climate or for indoor use. They impress with their particularly luxurious feel, but usually require more maintenance if soiled.

Product information

Product description

LUNA planter - sculpture meets function.

With its clear, organic design language, the LUNA planter is reminiscent of the design icons by Verner Panton and Joe Colombo. LUNA is not just a pot, but a statement piece for modern interiors and gardens.

Made of double-walled polyethylene (LDPE), it is extremely robust and yet surprisingly light. Whether in the depths of winter at -60 °C or in the blazing midday sun: LUNA retains its shape and also protects the roots of your plants thanks to the insulating layer of air. 100% recyclable, UV-resistant and made for a lifetime of use.

only and is not suitable for outdoor use.

Indoor or outdoor use?

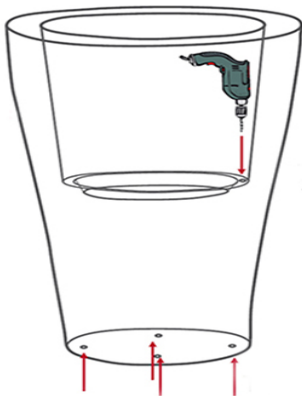

Illuminated planters have an integrated and lockable water drain. This means they can be used both indoors and outdoors. Planters without lighting do not have integrated water drainage. When used outdoors, several holes must be drilled with a drill both in the base of the planting area and in the subsoil on which the planter stands to prevent waterlogging.
