Descrizione del prodotto

L'Ocean Master MEGA MAX Classic di TUUCI è un ombrellone premium progettato per ampie aree ombreggiate e spazi esterni di alto livello. Con una copertura di 4,9 × 4,9 metri, unisce design elegante, ingegneria avanzata e stabilità eccezionale. Questo modello è stato sviluppato appositamente per un uso professionale ed è ideale per hotel, ristoranti, istituzioni educative e prestigiosi progetti privati.

Robustezza e Durata

Il robusto palo da 13,3 cm con estrusione a quattro canali in alluminio marino garantisce la massima stabilità. L'ombrellone resiste a velocità del vento fino a 72 km/h e sopporta raffiche fino a 120 km/h. Grazie alla sua struttura a bassa manutenzione, il MEGA MAX offre una lunga durata, riducendo al contempo l'impatto ambientale.

Precisione nei Dettagli

Il design brevettato Vision Hub in acciaio inossidabile assicura la massima resistenza e un aspetto elegante. Le stecche con diametro di 5,1 cm offrono maggiore stabilità e sostengono saldamente l'ampio telo. Ogni componente è studiato per garantire longevità e robustezza.

Funzionamento Pratico

Il palo telescopico integrato consente un'apertura e una chiusura agevoli sopra l'arredamento. Il sistema EasyDrive con manovella e meccanismo a vite autolubrificante garantisce un utilizzo fluido anche in presenza di dimensioni straordinarie.

Opzioni Personalizzate

Per un comfort aggiuntivo, il MEGA MAX può essere dotato di illuminazione LED Ambia (regolabile, luce verso l'alto e verso il basso) o di potenti riscaldatori a infrarossi. In questo modo qualsiasi spazio esterno diventa un ambiente esclusivo, indipendentemente dall'ora o dalla stagione. L'Ocean Master MEGA MAX Classic 4,9 × 4,9 m di TUUCI è la scelta perfetta per progetti che richiedono i più alti standard di qualità, funzionalità e design.
